Intensive In-home Child and Adolescent Psychiatric Services (IICAPS)

MAINTAINING YOUTH IN THEIR HOMES AND COMMUNITIES.

Our Intensive In-Home Child and Adolescent Psychiatric Services (IICAPS) program is a home-based, family-focused treatment program that helps children and adolescents to age 18 with complex psychological and behavioral needs returning from – or at risk for – hospitalization or placement in detention or a residential treatment facility. The program engages all family members in a strong working partnership between the child, the family, the school and community and includes:

- Home-based, time-limited individual and family therapy
- 24-hour-a-day/7-day-a-week crisis response
- Parental guidance and education
- School consultation
- A comprehensive treatment plan
- Strengths-based treatment that helps children learn effective coping and problem-solving skills
- A process for connecting families to ongoing supports in the community

OUR PROGRAM

- Improves functioning and decrease problem severity
- Reduces emergency room visits
- Reduces arrests
